

2011 Kentucky Asthma Program Fact Sheet- KIPDA District

- The KIPDA District of Kentucky is comprised of 7 counties: Bullitt, Henry, Jefferson, Oldham, Shelby, Spencer, and Trimble
- The 2010 KIPDA District population was roughly 946,500, with about 223,500 being less than 18 (children), and about 723,000 being 18 or older (adults).
- According to the Behavioral Risk Factor Surveillance Survey (BRFSS), for 2010, it was estimated that 18,000 children, and 71,000 adults in the KIPDA District currently had asthma.

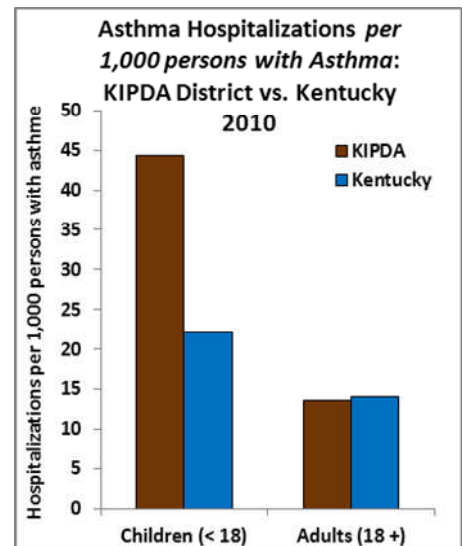

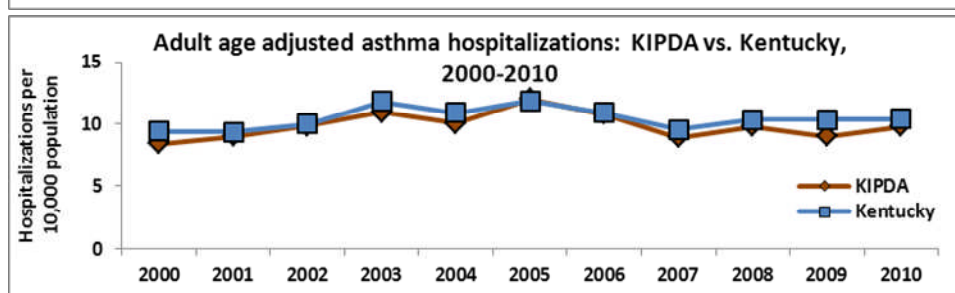

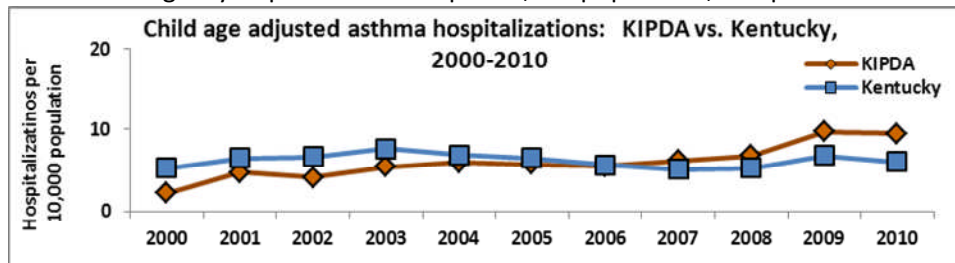

PREVALENCE

- According to the BRFSS, compared to Kentucky, children in the KIPDA District reported lower prevalence rates of current asthma. For adults, men in the KIPDA district reported more current asthma compared to Kentucky, while women in the KIPDA district reported less current asthma compared to Kentucky.

HOSPITALIZATIONS

- According to data provided by the Office of Health Policy, between 2000 and 2010, the KIPDA District averaged 7.9 asthma hospitalizations (per 10,000 population) per year, while Kentucky averaged more- at 8.3 asthma hospitalizations (per 10,000 population) per year over the same 11 year period.
- In 2010, among children in this district, there were 29.5 asthma Emergency Department visits per 10,000 population, compared to the state rate of 20.0 per 10,000 population. Among adults in this district, there were 37.3 asthma Emergency Department visits per 10,000 population, compared to the state rate of 29.2 per 10,000 population

MORTALITY

- According to data provided by the Office of Vital Statistics, between 2000 and 2009, the KIPDA District averaged 11.8 deaths from asthma per year. Over this ten year period, the KIPDA District averaged 21.3 asthma deaths per 100,000 adults with asthma, compared to the state average of 17.1 asthma deaths per 100,000 adults with asthma.
